OBJECTIVE:

Results-driven and technically proficient B.Tech student specializing in Information Technology with strong foundational knowledge in C#, ASP.NET, SQL Server, and software application development. Eager to contribute to Cognizant as a .NET Developer, applying skills in backend development, CRUD operations, manual testing, and performance optimization. Passionate about building scalable applications and contributing to enterprise-level support and automation initiatives.

ACADEMICS:

- Bachelor of Technology in Information Technology 2022-2025
GPA: 8.55
- Diploma In Computer Technology 2019-2022
Percentage: 83.49
- SSC 2018-2019
Percentage: 88.40

PROJECTS:

1. AI Driven Interactive Learning Platform

- Designed and developed an AI-based educational platform using ASP.NET and C#, enabling real-time, persona-driven learning experiences. Integrated CRUD operations, multilingual content delivery, and adaptive learning flows based on user behavior. Applied agile practices for efficient team collaboration and sprint-based development.
- Conducted thorough manual testing and backend optimization to ensure system stability, achieving a 94% response accuracy and 86.5% user engagement. The project demonstrated proficiency in backend logic, data structuring, and user experience enhancement, aligning with enterprise-level development standards.

2. PizzaMetrics: SQL-Based Sales Trend Analysis

- Executed a data analytics project using SQL Server to analyze sales trends, customer behavior, and product performance. Utilized advanced SQL techniques like joins, subqueries, and window functions to derive key insights for business growth.
- Performed data cleansing, transformation, and normalization to ensure consistency and accuracy in reporting. Delivered actionable insights to support sales forecasting, product optimization, and executive-level dashboards, showcasing strong data analysis, reporting, and problem-solving skills.

SKILLS:

- **Programming Languages:** C#, ASP.NET,
- **Web Development:** HTML, CSS, JavaScript, React
- **Database Management:** SQL, SQL Server, CRUD Operations
- **Tools & IDEs:** Visual Studio, VS Code, GitHub, Jupyter Notebook
- **Other Skills:** Data Analytics, Problem Solving

Certification and Achievement:

- **Research Publication:** “Analyzing User Interactions and Behavior across Social and Professional Network ” published in YMER Journal ” <https://ymerdigital.com/archives/?cpage=4&issId=%202307>”.
- **Research Paper:** “AI Driven Interactive Learning Platform ” – Presented and selected for publication (currently under process).
- **ACM Summer School:** Successfully completed the AI and Machine Learning program conducted by the ACM India Council.
- **Smart India Hackathon:** Participated and selected for the State Level round of the national innovation competition.
- **Spoken Tutorial Certifications:** Certified in Object-Oriented Programming, Python, and Java through IIT Bombay’s Spoken Tutorial program.
